

TECHNICAL DESCRIPTION

"PIEGO" - TILTING TABLES

Sturdy and safe table characterized by a space-saving tilting system. Easy to move, it also allows one person to organize the environments of use, whether they are offices, training rooms or conference rooms. The two top release levers are designed to allow easy and ergonomic use of the table. The table is certified, guaranteeing excellent resistance even in contexts subjected to strong stress.

The table consists of a top and a metal structure.

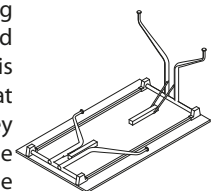

The top is made with a Class E1 particle board panel with Formaldehyde content, 18 mm thick melamine faced with a 2 mm thick ABS edge in the same color as the surface, available in the following colors: OAK 03, CLASSIC WALNUT 07, GREY 38, STONE GREY 44, BLACK 51, DARK POPLAR 63, WHITE 68.

Zamak inserts 8x13 metric pitch 6ma, for housing the fixing screws for the structure.

The metal structure in steel, CHROMED, BLACK or WHITE painted, rests on 4 lockable Ø75 mm swivel castors.

"PIEGO" - FOLDING TABLES

Handy and practical, "PIEGO" with folding legs is a compact table that offers a solid support surface. Easily stackable, it is equipped with special rubber supports that prevent the tables from moving when they are one on top of the other, protecting the surface of the top. The closing system of the legs is made entirely of steel and is able to withstand even strong stresses.

The table consists of a top and a metal structure.

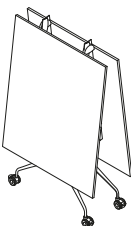

The top is made with a Class E1 particle board panel with Formaldehyde content, 18 mm thick melamine faced with a 2 mm thick ABS edge in the same color as the surface, available in the following colors: OAK 03, CLASSIC WALNUT 07, GREY 38, STONE GREY 44, BLACK 51, DARK POPLAR 63, WHITE 68.

Zamak inserts 8x13 metric pitch 6ma, for housing the fixing screws for the structure.

The metal structure in steel, CHROMED, BLACK or WHITE painted, rests on adjustable feet.

"LARGE" version: width 280-320 x depth 100 x H.72,8 (OPEN) -

The table consists of two tops and a metal structure.

The tops are made of particleboard wood, in Class E1 formaldehyde content, thickness 25 mm, with melamine facing an edging with ABS strip thickness 2 mm to match the surface, available in the colors: OAK 03, CLASSIC WALNUT 07, GREY 38, STONE GREY 44, BLACK 51, DARK POPLAR 63, WHITE 68.

Inserts in zama 8x13 metric 6ma, for the housing of the fixing screws for the structure.

The CHROMED, BLACK or WHITE steel structure rests on 4 lockable

Ø75 mm pivoting wheels.

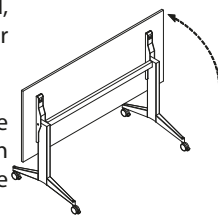

"CHIUDO" - TYPE 1 - TABLE WITH TILTING TOP

1 table consists of 2 legs and 1 crossbar.

Extremely solid structure that allows each user to move the table without effort. Epoxy powder coated, available in the following finishes: BLACK or WHITE.

Unique unlock command.

The top is automatically locked in the vertical position and in working position without the need to further press the unlock command.

The table tops are frontally stackable for greater space saving.

The wheel cover can be provided in two shades: dark grey and white

A kit with undertop Nylon hooks for the aggregation of tables is available separately.

Dimensions in cm: width 140/160/180 x depth 70 x H.72,8 (fixed height)

Certifications: The table is tested according to EN1730: 2000

Specifications:

Legs:

Bases: metal sheet 25/10

Vertical column: tube 100x40x2 mm

Wheels: Ø 60 mm with brake

Crossbar:

Rectangular tube 50x30x1,5 mm

Metal Sheet 450x58x3mm.

Table top:

In particleboard wood, in Class E1 formaldehyde content, thickness 25 mm with melamine facing and edging with ABS strip thickness 2 mm to match the surface, available in the colors: OAK 03, CLASSIC WALNUT 07, GREY 38, STONE GREY 44, WHITE 68.

Inserts in zama 8x13 metric 6ma, for the housing of the fixing screws for the structure.

"CHIUDO" - TYPE 2 - TABLE WITH FOLDING LEGS

1 table consists of 2 legs + 1 crossbar

The mechanism of folding legs is sturdy and practical. The legs are fitted with spacers scratch-resistant, they are also provided with adjustable feet Ø 40mm polypropylene anthracite.
