

## TECHNICAL DESCRIPTION

### MOD. ENOSI

#### EXECUTIVE DESKS, EXTENSIONS AND MEETING TABLES

The work top is available in two constructive types:

A)- COVERED WITH 3D-FOIL

B)- IN TOUGHENED GLASS REAR-LACQUERED

Type A)

Total thickness of the work top 30mm, made from an MDF wooden fibre panel covered with 3d-foil, available in the colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68.

Type B)

Work top made from toughened glass with a satin effect, 12mm thick, with lipped shiny flat edges, available in the colours: BLACK 10 and EXTRA WHITE 78.

Supporting legs

Made from a 1,5 mm thick coned tube, available in 2 version:

- painted version in colours: WHITE (BI 02) and BLACK (NR 03)

- shiny chromed version.

Both types have die-cast leveling feet in metal alloy to match the leg, with a regulation of 20mm.

Structural beams are made from rectangular steel tubes 50x25, 1,5 mm thick, which are fixed to the conical supporting legs by screws.

#### MODESTY PANEL

Made from 18mm thick MDF wooden fibre panel covered with 3d-foil. Available in the colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68.

They are suspended from the structural beams using supporting brackets.

#### TOP ACCESS FOR MEETING TABLES

Available in two types: without and with electrical sockets. Made of painted aluminum in the finishes: BLACK and WHITE.

Equipped with a dual opening system for access to the cable trays below or, in the second version, to the electrical sockets supplied.

Both types are equipped with a black dust brush.

#### PEDESTALS AND SERVICE UNITS

Pedestals and service units are made from an internal primary structure with particleboard panels 18 mm thick, melamine coated, available in the following colours: BLACK 51 and WHITE 68, and an external finishing part made from finishing side panels, bases, top and back panel.

The components of the external finishing part are made from an MDF wooden fibre panel covered with 3d-foil available in colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68.

Pedestals and service units are fitted with pirouetting nylon wheels covered in rubber with a supporting pin and a chromed side finish, with a stabilizer brake for the front wheels.

Internal drawers made of fibreboard covered with white PVC that slide on metal glides with nylon bearings, with drawer opening stopper and self-closing system. The opening is no handle because the guides are equipped with push-open system.

The pedestals and service units on wheels are equipped of internal stationary-tray.

The pedestals and service units on wheels are fitted with pull-out stationary holder placed inside the upper drawer, made of MDF covered with thermoformed polymeric sheet (HDCP) with compartments for I-PAD and mobile phones.

#### MODULAR UNITS

The cabinets are made up of the following elements:

Structure of modular unit with doors or drawers, adjustable base, finishing top, finishing side panels.

The modular units are available in widths of w 45/90 x h 45 cms assemblable and overlapping so as to create various compositions of furniture of various sizes and to be finished always with

structural base, final side panels and finish top.

The structure of modular units is made from particleboard panels 18 mm thick, melamine coated, available in the following colours: BLACK 51 and WHITE 68.

The base is made from 30mm thick wooden fibre panel covered with 3d-foil available in the colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68. The base is fitted with levelling feet

The top, final side panels and the doors are made from an MDF wooden fibre panel (12mm thick for top and final side panels, 18 mm thick. for doors) covered with 3d-foil available in the colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68.

The doors are fitted with push/open system.

All the hinges are of the wing type with metal box with 110 ° opening, complete with bases, with 3D adjustment, and with a soft-closing cushioning system.

The compositions of furniture can be integrated with an open-bookcase made with folding system in 12mm MDF and painted in WHITE and BLACK. The dimensions of this element are w 90 x d 46,3 x h 45 cms.

#### CABINETS

Are available in the width 45cm and 90cm and in 3 different height measurements: low, medium and high cabinets.

Structure made of particleboard panels 18 mm thick, melamine coated, (25mm thick for shelves), available in the following colours: BLACK 51 and WHITE 68, perimetricaly finished with ABS edge of 0,45 mm thick in the same colour as the surface and fitted with leveller feet.

Internal drawers made of fibreboard covered with black PVC that slide on metal glides with nylon bearings, with drawer opening stopper and soft-closing system.

The doors and the frontals of drawers are made from 18mm thick wooden fibre panel covered with 3d-foil available in the colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68. The low and medium wooden doors are fitted with sliding bar locks, the high doors are fitted with a rotating rod lock with 2 locking points.

The glazed doors are without handle, with lock, with anodised aluminium perimeter hidden frame and 4 mm tempered glass rear-lacquered in colours: BLACK 10 and EXTRA WHITE 78.

All the hinges are of the wing type with metal box with 110 ° opening, complete with bases, with 3D adjustment, and with a soft-closing cushioning system. On the black structures the hinges are titanium colored while on the white ones they are nickel plated.

The handles are made of metal with a chrome finish.

The cabinets are always complete with base+top finish + final sides panels.

#### BASE, FINISHING TOPS AND FINAL SIDE PANELS

They are made with MDF type fibreboard panels of 12mm thick covered with 3d-foil available in the colours: PACIFIC WALNUT 37, BLACK 56, WHITE 68.

#### PACKAGING

All the components are disassembled and packed when supplied, and have paper triple type folding packaging, fillets for the perimetrical protection and for the fillings up, where needed. The corners are protected, where needed, through shock resistant edges protector. The packing closure occurs through sticky tape and welded nylon strap. Pedestals are assembled, when supplied, protected through polystyrene angle bars on the sides and packed using thermo-retractable polyethylene leave when provided.
