Drive

Drive is an electric height regulation desks which allows for customized standing and sitting positions and is a great ergonomic solution.

The electrical height regulator, located underneath the work surface, simplifies changes in positions depending on one's office needs. Changing position during long

working hours increases work effectiveness, productivity and health. To create an intimate atmosphere, Drive allows you to add acoustic panels. Drive bench gives the opportunity of quick and easy adjusting to individual needs without compromising on functionality and space. Each work station has its own individual mechanism which works independently.

Ogi

From a classic four-legged variant through a radial one with MFC legs to a desk adjusted to the user's size featuring a sit-sit frame – the Ogi desk is a personalised workstation that suits every pocket.

The variety of options results from the combination of a universal top in multiple sizes and forms with diversified frame types, coming in both a single and double version, that allow to create an arrangement of any size.
