---

# COMFORT AND PRESTIGE

*This auditorium armchair with a simple shape is designed especially for huge concert and conference halls, and other prestigious and important cultural facilities.*

*The armchair dimensions and high quality materials ensure great comfort and give the best possible aesthetic impression.*

The Symphony armchair's impressive dimensions guarantee its exceptional comfort. Thanks to wide axial spacing, it is possible to adjust the armchair to the client's preferences and hall size.

Cuboid-shaped legs and a solid backrest made of plywood provide an essence of elegance. The chair's suitably contoured seat and backrest cushions meet the highest

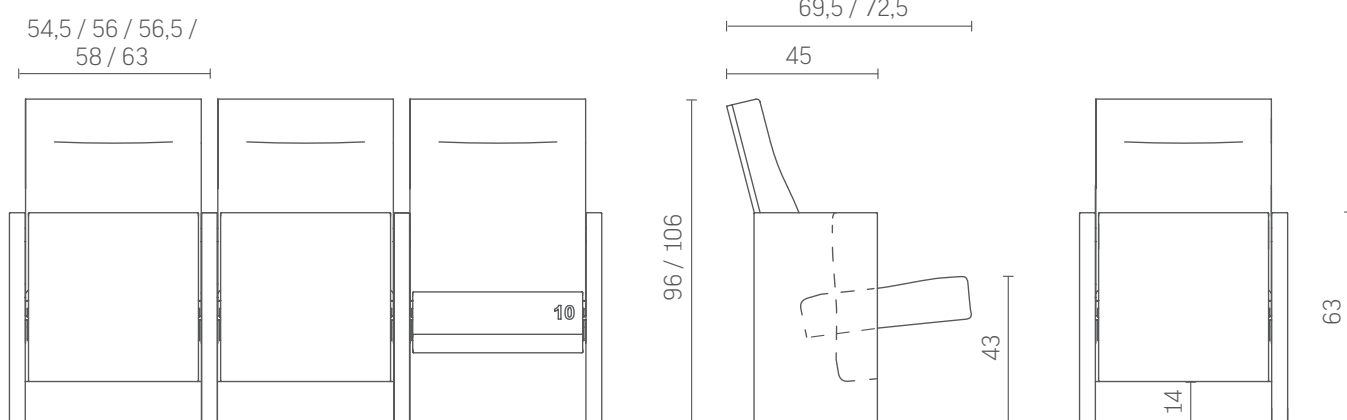

ergonomic requirements. They can also be covered with a thick upholstery fabric that harmonises perfectly with the shape of the armchair. Moreover, the gravitational folding mechanism ensures quiet and failure-free operation.

Because it is made using the highest quality materials, the armchair has excellent acoustic properties, which are crucial in concert, theatre and conference halls.

#### DIMENSIONS\*:

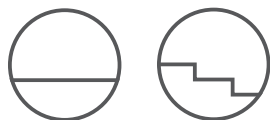

\* Particular dimensions can be individually adjusted to a given project.  
All dimensions are in centimetres.

#### CHARACTERISTIC FEATURES AND AVAILABLE OPTIONS:

- Seat dimensions: from 48 to 50 cm (possible change of seat dimensions: 56, 58).
